Founder's Greeting:

Welcome to the world of N Generation.

The "N" in N Generation stands for:

Next Generation
Network Marketing
NMN

You may be aware that after 2,000 years of human pursuit, the elixir of youth, sought after by figures such as Emperor Qin Shi Huang, Cleopatra, and Yang Guifei, has finally emerged in the form of NMN.

N Generation aims to constantly deliver cutting-edge rejuvenation-related products, including NMN, to people worldwide, and to create a society that is energetic, bright, and enjoyable.

On the other hand, the world of network marketing began with Company A in 1959 and has seen numerous developments since. Recent advancements have been remarkable, with rapid evolution in the speed of business expansion.

While traditional labor income business models are akin to "walking," many Network Marketing Businesses with residual income can be likened to "bicycles." However, surprisingly, high-speed business models like "bullet trains" have emerged recently, and companies that did not exist in the past 60 years have started up.

However, N Generation is achieving business launch with a "jet plane" class engine that goes beyond that.

The problem lies in the fact that, just as you cannot see the summit of Mount Fuji from the first station, people who have been riding bicycles won't understand the story of "jet planes" even if you tell them. Even if they think they understand it intellectually, they won't fully comprehend it until they experience it.

N Generation's philosophy is to support all members in having "their own lives." We want all members to ride "jet planes."

We sincerely welcome all motivated individuals and look forward to meeting you.

October 2022
Masaki Sakurai
Founder and CEO, N Generation Inc.
